YEARS IN SUPPORT	CSAT SUSTAINED	FIRST RESPONSE	CASES / DAY	INCIDENTS & RCAS	ENTERPRISE ACCOUNTS

PROFESSIONAL SUMMARY

Technical Support Specialist with **4+ years of experience** delivering L1/L2 support for enterprise SaaS platforms and custom product-configuration (CPQ) systems. Skilled in advanced troubleshooting, **system log analysis, root-cause analysis (RCA)** and incident management across cloud environments. I consistently sustain a **94% CSAT** and a **sub-10-minute first-response SLA** while resolving **20+ cases per day**, and I have documented **30+ incident investigations and RCAs**, partnering with Engineering to ship permanent fixes for **15+ enterprise accounts** across the US, Canada and LATAM.

EXPERIENCE

Technical Support Specialist (Tier 1 & Tier 2)

Feb 2025 – Present

Revalize / Configure One

Enterprise CPQ SaaS platform for complex product configuration · Remote

- Resolve 20+ daily L1/L2 cases on an enterprise CPQ SaaS platform, sustaining a 94% CSAT and a sub-10-minute first-response SLA.
- Investigate and document 30+ incidents and RCAs, tracing root causes through system logs, error telemetry and cloud-environment diagnostics.
- Support 15+ enterprise accounts (Avianca / Lifemiles, Altabix, Escapadas, Sicas Lite, Invetso and others) across the US, Canada and LATAM.
- Partner with Engineering and Product to ship permanent fixes and reduce repeat escalations on authentication, configuration and integration issues.
- Author customer-facing incident reports and knowledge-base articles, improving first-contact resolution and long-term platform stability.

Technical Support & Project Coordination (Junior PM)

Mar 2024 – Nov 2024

BluePixel

Technical Support / Client Solutions · Remote

- Coordinated cross-functional teams to deliver client solutions in fast-paced technical environments.
- Managed project timelines, client communication and task prioritization for high-profile accounts including Lifemiles–Avianca and Altabix.
- Supported technical teams with issue tracking, follow-up and resolution workflows, bridging clients and development teams.

Issue Tracking | Client Communication | Coordination

Bilingual Customer & Technical Support Specialist

Mar 2021 – Nov 2023

Teleperformance LATAM

Uber Eats & VRBO · Remote, US & Canada markets

- Handled high-volume technical and customer support across chat, phone and email, resolving 20+ daily cases.
- Troubleshot account access, billing discrepancies, payment-gateway issues, refunds, failed transactions and account restrictions.
- Managed password resets and security-related cases while maintaining strong customer satisfaction.

CORE COMPETENCIES

- **Support Engineering**
  - L1 / L2 Technical Support
  - Incident Management
  - Escalation Handling
  - Root-Cause Analysis
  - SLA & KPI Management
  - Customer Success
- **Debugging & Observability**
  - Application & System Log Analysis
  - Error Telemetry
  - API / SSO (OIDC) Troubleshooting
  - Production Issue Reproduction
- **Cloud & Systems**
  - Cloud Environments
  - Windows & Linux Servers
  - Networking
  - SSL / TLS Certificates
  - Databases & SQL
- **Tools & Platforms**
  - Salesforce
  - Jira
  - Genesys Cloud
  - Citrix
  - Slack
  - Microsoft Teams
  - Google Workspace
- **Development Background**
  - JavaScript
  - React
  - Node.js
  - REST APIs
  - HTML
  - CSS

SELECTED INCIDENT INVESTIGATIONS (RCA)

INC-001 CRITICAL **Production sign-in outage** Infrastructure · TLS

Problem: production login outage traced to an expired TLS certificate on the application server, while the public site still presented a valid, separately renewed certificate.

Action: isolated the mismatch to the application-server certificate and guided the customer through installing the correct certificate and private key.

Result: restored access in ~31 hours · safeguards proposed to prevent recurrence.

SSL / TLS · Log Analysis · Root Cause

INC-002 HIGH **Quote-creation failure** Integration · Data

Problem: a two-phase failure in which a recent environment change and legacy account data each independently blocked quote creation.

Action: isolated a missing account reference value, restored the affected records and supported defensive integration changes to handle incomplete data gracefully.

Result: quote creation restored across affected accounts · integration hardened against incomplete data.

Dynamics CRM · Data Integrity · SQL

INC-003 HIGH **SSO authentication upgrade** Identity · SSO

Problem: first-login and account-linking failures surfaced for users immediately after a Keycloak 26 upgrade.

Action: corrected OIDC scopes and Identity-Provider mappers, then documented the fix so it could be rolled out safely to production.

Result: authentication restored for affected users · fix documented for repeatable rollout.

Keycloak · OIDC · SSO

SELECTED PROJECTS

Landingpage Arte — Art-gallery e-commerce Node · Express · SQLite · Stripe

Art-gallery e-commerce platform with shopping cart, Stripe payments and an admin panel. Full-stack with Node.js and Express.

Artiefy Backend — REST API TypeScript · Next.js · Prisma

REST API for an online store with authentication and a Prisma-managed SQLite database.

Gallery Store — Full-stack storefront Node · Express · Stripe · JWT

Art-gallery storefront with JWT authentication, Stripe payments and an admin panel.

Netflix Clone & React Expense Tracker React · Vite · JavaScript

Responsive streaming UI replica and a state-driven budgeting app with reusable components.

Weather App & Pokédex JavaScript · REST API · CSS

Live weather data and an interactive Pokédex with search and type filters, both consuming public REST APIs.

Angular Steam Angular · TypeScript

Steam interface replica demonstrating proficiency in the Angular framework.

EDUCATION & CERTIFICATIONS

Bachelor's Degree in Systems Engineering
Fundación Universitaria San Mateo
IN PROGRESS Expected Dec 2027

Technical Diploma in Software Development
PONAO
COMPLETED

Full Stack Development Bootcamp
Talento Tech
COMPLETED Feb 2025 – Aug 2025

Meta Front-End Developer Professional Certificate
Coursera
COMPLETED

Front-End Development
Udemy
COMPLETED

Bilingual High School Diploma
INCAP Institute · Diana Oese School
COMPLETED

TOOLS & TECHNOLOGIES

Salesforce · Jira · Genesys Cloud · Zendesk · Citrix · Postman · SQL · Keycloak · OIDC / SSO · Windows Server · Linux · REST APIs · React · Node.js · Google Workspace

HIGHLIGHTS

- **Consistency under load** — 94% CSAT and a sub-10-minute first response sustained across 20+ daily cases.
- **Root-cause driven** — 30+ investigations documented, turning recurring escalations into permanent fixes.
- **Customer-facing** — clear incident reporting and knowledge-base authoring for US, Canada and LATAM accounts.
- **Technically fluent** — JavaScript, React, Node.js and REST APIs alongside enterprise support tooling.
